

Brympton House Styling

STYLE BY DESIGN

We are a design-led creative team who provide all of the styling and floral arrangements at Brympton House. We love to imagine, create & play with materials. Combining colours, textures and small pieces of inspiration, we craft an entire event experience. We believe that the design of your day should be an interpretation of your wedding vision. Everything that we do, therefore, results from a relationship - a collaboration of ideas that we form together. Designs, including flowers and props, start from £2500.
